LIFE INSURANCE PLAN

Life Insurance with extended Total & Permanent Disability (TPD) Benefit, Terminal Illness (TI) Benefit, Simplified Critical Illness Benefit (SCI), and Accidental Death & Disablement Benefits (ADD)

This Life Insurance covers death arising from any causes except suicide in the first year of cover, or subsequent increase of Insured Sum, or date of reinstatement after lapse. The TPD, TI, SCI and ADD are benefit extensions to the Life Insurance. The maximum benefits payable under the Life Insurance including all benefit extensions except ADD is the Life Insurance Insured Sum. ADD is payable on top of the Life Insurance. Coverage under each benefit extension is described as follows.

Total & Permanent Disability (TPD) Benefit -

If as a result of sickness or accident, an Insured Member suffers TPD (as defined below) continuously for at least 6 months, 10% of the Life Insurance Insured Sum will be payable. The remaining 90% of the Life Insurance Insured Sum will be payable in one lump sum if the TPD persists at the end of a 12 month period or prior death occurs after the initial 10% payment.

TPD is defined as the inability to engage in any occupation or employment for compensation or profit for which an Insured Member is reasonably qualified by reason of his education, training or experience for the remainder of his lifetime as a result of accidental bodily injury, sickness or disease. The total and irrecoverable loss of sight of both eyes, or the loss by severance of two or more limbs at or above wrists or ankles, or the total and irrecoverable loss of one eye and loss by severance of one limb at or above wrist or ankle will be considered as TPD.

However, no advance payment shall be made if the SCI benefit described below has been paid. Simplified Critical Illness (SCI) Benefit -

If an Insured Member is diagnosed to have one of the following Illnesses:

a) Kidney Failure, b) Paralysis or c) Coma, as defined in the Policy, a lump sum benefit equal to 100% of the Life Insurance Insured Sum subject to a maximum of **HK\$300,000/US\$38,500** will be paid in advance. However, no advance payment shall be made if the TI benefit described above has been paid. Benefit payment is escalated at 5% per annum.

Total Disability

Total Disability is defined as, during the Deductible Period and the next 24 months, the inability of a Member to perform all duties of his/her **own occupation** on a full-time basis; and thereafter, the inability to perform **any occupation** reasonably fitted by the Member's training, education and experience. The Total Disability may be caused by injury or sickness.

Some Notes on How to Choose the Insured Sum

The options that are available are defined by the basic Life Insurance Insured Sum. For example, if the Life Insurance Insured Sum is HK\$1,500,000 (Plan 5), there are three choices of Disability Income Insured Sum - HK\$20,000, HK\$30,000 and HK\$40,000 of monthly benefit. The chosen Sum normally should not exceed your Maximum Coverage Amount (please refer to above for explanation) as this is the maximum that would be paid as benefit.

Differences between the Disability Income (DI) and the Total & Permanent Disability (TPD) under the basic Life Insurance

1) Definition

Under DI, benefit payable in the first 2 years is subject to the Member being unable to perform **his/her own occupation** whereas under TPD, the Member is unable to perform **any occupation** for which he/she is **reasonably fitted by education, training or experience for the remainder of his/her lifetime**.

2) Payment

Once a claim is admitted, the TPD benefit is payable in two lump sum instalments i.e. 10% of the Insured Sum after 6 months and 90% after 12 months. After a Deductible Period, the DI benefit is payable as a monthly income benefit escalated at 5% per annum until age 65, or prior death. The DI benefit will be reduced if compensation is obtained from employer, retirement income, employees' compensation etc.

The DI benefit is a separate benefit and does not affect the basic Life Insurance coverage, while any payment made under TPD will reduce the Life Insurance Insured Sum.

Differences between the Critical Illness (CI) and the Terminal Illness (TI) under the basic Life Insurance

The main difference lies in the scope of coverage and whether it is an additional Insured Sum or an advancement of the Life Insurance Insured Sum.

Under the CI Insurance, Terminal Illnesses is only one of the types of covered Illnesses in the Schedule along with 46 other types. That is to say, CI covers Terminal and also some specified non-Terminal Illnesses. CI coverage can be taken out independently and additional premium is required.

TI benefit is bundled with the Life Insurance and covers Terminal Illnesses only and no others.

The CI Insurance is a separate coverage and **will not reduce**, while any payment made under TI benefits **will reduce** the basic Life Insurance Insured Sum if such becomes payable.

HKICPA PERSONAL LIFE & MEDICAL PROGRAM

MEDICAL INSURANCE PLAN

What does the Insurance cover?

The Medical Insurance including top-up Major Medical benefits reimburses medical expenses incurred as an inpatient in any registered Hospital as a result of accident or sickness, anywhere in the world, 24 hours a day, and also provides Emergency Evacuation coverage, herein referred to as the **Basic Plan**.

As a supplemental coverage and at additional premium, Members may also enrol the **Out-patient Benefits**. However, Chinese Herbalist and Bonesetter are not covered under this Insurance.

Spouse and Children Cover

Members can apply to cover their spouse and children for as much as the same benefits they are insuring. If Members have medical insurance provided by their employer, they can insure their spouse and children only.

What is an “Any One Disability”?

“Any One Disability” shall mean all disabilities arising from the same cause or related causes, as well as concurrent disabilities from different causes during the same hospital confinement or confinements except that after ninety (90) days of recovery following the latest discharge from hospital, subsequent disability from the same cause or causes shall be considered as a new disability.

Is Pre-existing Condition covered?

A Pre-existing Condition is a condition for which a Member/Insured received medical treatment, diagnosis, and consultation or prescribed drugs during the 90 days preceding the effective date of his/her coverage. Pre-existing Conditions are not covered unless the Member/Insured has been continuously insured under this Policy for 12 months. Members previously withdrawn from the Plan and subsequently re-apply are considered new applicants and are therefore subject to this Pre-existing Condition restriction.

What is the coverage provided under the Major Medical benefit?

If an Insured Member is confined in a Hospital as a result of Sickness or Injury and incurs In-hospital Expenses exceeding the maximum inpatient benefits, 80% of these excess eligible expenses will be reimbursed after applying an **Eligible Expenses Adjustment** (if applicable)* and a Deductible as follows, up to the maximum Major Medical limit.

$80\% \times [(Incurred\ Covered\ Expenses - Basic\ Plan\ Covered\ Expenses) \times Eligible\ Expenses\ Adjustment - Deductible]$

Eligible Expenses Adjustment =

***Basic Plan Max Per Day Room & Board / Incurred Average Per Day Room & Board;
subject to a Max of 100%***

Deductible: HK\$500

* Eligible expenses adjustment will be applied when “Incurred Average Per Day Room & Board” is higher than “Basic Plan Max Per Day Room & Board”.

What if I have other Medical Insurance?

If the hospitalisation claim is reimbursed by Member’s other medical insurance, this Policy will pay the covered actual expenses after payments from such other policies, and in no way be responsible for more than a rateable portion of the actual incurred covered expenses.
